

# HANGING AND STACKING PART BINS

LEWISBins+ has expanded its part bin product offering to include four additional industry-standard sizes, designed to bring value and efficiency. These high-performance polypropylene bins are used for secure storage of parts and products in industrial assembly operations, healthcare, stockroom, warehouse and hardware merchandising applications.

- Four NEW sizes available:
  - 14" x 5" x 5"
  - 18" x 8" x 9"
  - 18" x 11" x 10"
  - 18" x 16" x 11"
- Hopper front with curved design enables convenient part retrieval.
- Wide stacking ridge enables stacking to save space.
- Fully compatible with competitive part bins.
- Finger grips, for better ergonomics, on new sizes.
- Optional length dividers keep contents organized. Dividers also increase versatility by providing an optimized compartment size.
- Selected bins hang securely on rails or louvered panels. (see pp. 4-9 for Metal Storage Systems)
- Optional dividers increase versatility.
- Large front label slot allows bar code or ID card.
- Selected models now available in Clear polypropylene.

# METAL STORAGE SYSTEMS

LEWISBins work with most existing shelving and LEWISBins+ Metal Storage Systems, including louvered panels, bench assemblies and other hanging systems. These versatile systems allow you to easily control inventories, organize picking systems and optimize space. See pages 4-9 for more information.

LPFS1-BST with PB54-3, PB74-3, PB105-5, PB108-7, PB1011-5, and PB1416-7

\* All Dividers are stocked in Black and packaged in quantities of six (6).

PB1416-7 with DPB14-7 Dividers

LEWISBins are now available in Clear polypropylene, for easy content identification. These easy-view, stackable bins allow for instant visual inventory. The contoured hopper front design is ideal for industries where speed and accuracy are critical.
